GENERAL TERMS AND CONDITIONS DIGITAL NOTARY

Version 5

Effective date: 1 June 2026

1. Content and Applicability

1.1 These General Terms and Conditions of Digital Notary (the "Terms") apply to all services and activities offered by Digital Notary B.V. ("Digital Notary"), whether paid or unpaid, to private limited liability companies ("Companies") and/or shareholders. Digital Notary is not a civil-law notary firm and does not employ civil-law notaries. Digital Notary provides digital services supporting the incorporation, management and administration of Companies and collaborates with affiliated civil-law notary firms to enable founders to incorporate Companies digitally. As part of these services, the shares in a Company are, as standard, included in a collective securities deposit and thereby held in book-entry form. The Shareholders' Register is maintained digitally, and the issue, reissue and transfer of shares take place entirely digitally (by book entry), without the involvement of a civil-law notary. In addition, Digital Notary's Services include all related activities, including facilitating access to and inspection of the digital Shareholders' Register and providing additional support services relating to the digital incorporation, management and administration of Companies.

1.2 Digital Notary B.V. provides the Services in cooperation with Nxchange B.V., a group company of Digital Notary B.V. Nxchange B.V. is an intermediary within the meaning of the Wge and may maintain a collective securities deposit within the meaning of the Wge. These Terms also apply to the Services provided by Nxchange B.V. to companies in connection with the creation and management of the Digital Shareholders' Register following incorporation of the Company.

1.3 Nxchange B.V. also operates a regulated market and a multilateral trading facility within the meaning of Article 1:1 of the Dutch Financial Supervision Act, on which financial instruments may be listed, and holds a licence as an

investment firm. If the Company wishes to use the services of Nxchange B.V. to list financial instruments on the Nxchange exchange platform, it shall enter into a separate agreement with Nxchange for that purpose. These Terms do not apply to that agreement.

1.4 The details of Digital Notary B.V. and Nxchange B.V. are as follows:

- **Digital Notary B.V.**
  Brouwersgracht 77, 1015 GC Amsterdam, the Netherlands
  Chamber of Commerce number: 91355702
  Email address: info@digitalnotary.nl
  Telephone number: +31 (0)85 800 0389
- **Nxchange B.V.**
  Brouwersgracht 77, 1015 GC Amsterdam, the Netherlands
  Chamber of Commerce number: 62712616
  Email address: support@nxchange.com
  Telephone number: +31 (0)20 240 43 65

1.5 In these Terms, "Digital Notary" refers to Digital Notary B.V. or, where Services are performed (in part) by Nxchange B.V., to Digital Notary B.V. and Nxchange B.V. jointly.

2. Definitions

2.1 In these Terms, the following terms shall have the following meanings:

a. ***Shares***: shares or (depositary receipts for) shares in the Company;

b. ***Customer***: the recipient of one or more Services of Digital Notary with whom an Agreement is entered into; a Customer may be a Company or a Shareholder;

c. ***GDPR***: the General Data Protection Regulation of the European Union and the Dutch GDPR Implementation Act (UAVG).

d. ***Corporate Action***: all acts and resolutions of a Company affecting its issued capital, share structure or shareholders' rights, including, without limitation: the issue, reissue, conversion or repurchase of shares; the grant or exercise of options, warrants or other rights to acquire shares;

the distribution of dividends in cash or shares; amendments to the articles of association; mergers, demergers, acquisitions and conversions of share classes; and all other resolutions resulting in a change to the Digital Shareholders' Register or the position of shareholders.

e. ***Services***: services offered by Digital Notary to the Customer, including the Services described in Article 1.

f. ***Digital Shareholders' Register***: the register recording the details of holders of Shares, and the classes and numbers of Shares held by them, consisting of collective securities deposits within the meaning of the Wge. Each collective securities deposit is maintained by Nxchange. Nxchange's records establish which Shareholder is entitled to which Shares. Upon an Issue of Shares, those Shares appear in the Securities Account of the relevant Shareholder.

g. ***Digital Notary Platform***: Digital Notary's secure digital environment in which the Company and Shareholders can log in using a user account to obtain Services and/or access the Digital Shareholders' Register and/or other information relating to the Services obtained.

h. ***Shareholder***: a natural or legal person who holds, purchases or wishes to purchase Shares in an Issue.

i. ***Agreement***: an agreement between Digital Notary and the Customer concerning the provision of one or more Services to the Customer, or arising from an agreement between Digital Notary and the Customer for the provision of one or more Services.

j. ***Issue***: the issue of Shares by a Company to one or more Shareholders through Digital Notary.

k. ***Company***: the private limited liability company, or private limited liability company in the process of incorporation, using Digital Notary's Services;

l. ***Wft***: *the Dutch Financial Supervision Act (Wet op het financieel toezicht).*

m. ***Wge***: the Dutch Securities Giro Transfer Act (Wet giraal effectenverkeer).

n. ***WWFT***: the Dutch Anti-Money Laundering and Anti-Terrorist Financing Act (Wet ter voorkoming van witwassen en financieren van terrorisme).

3. General

3.1 These Terms apply to all offers and quotations made by Digital Notary, all instructions given to Digital Notary to provide one or more Services, and every Agreement with Digital Notary relating to the Services, including paid or unpaid Services to Companies and Services to Shareholders using the Digital Notary Platform.

3.2 The applicability of the Customer's general terms and conditions is hereby expressly rejected.

3.3 The Customer may rely on provisions deviating from these Terms only if and to the extent that Digital Notary has accepted them in writing.

3.4 Digital Notary is under no obligation to accept a Customer's application for the provision of Services.

3.5 A Customer who has entered into an agreement subject to these Terms agrees that these Terms shall also apply to subsequent agreements between that Customer and Digital Notary.

3.6 To the extent that any provision of these Terms conflicts with a provision of the (principal) Agreement, the Digital Notary Licence Agreement or the Data Processing Agreement between Digital Notary and the Customer, the relevant provision of the (principal) Agreement, the Digital Notary Licence Agreement or the Data Processing Agreement shall prevail over the conflicting provision of these Terms.

4. Provision of Services

4.1 Digital Notary provides the Services as described when the Agreement is entered into and in the Digital Notary Licence Agreement.

4.2 In performing the Services, Digital Notary acts in accordance with Dutch law, including the obligations incumbent upon Nxchange B.V. as an intermediary within the meaning of the Wge and pursuant to the Wft and the WWFT.

4.3 Digital Notary provides the Services in cooperation with a civil-law notary firm designated by Digital Notary. Digital Notary is not a civil-law notary firm and

does not employ civil-law notaries. The civil-law notary performs the notarial acts forming part of the Services.

4.4 The Customer authorises Digital Notary to instruct the external civil-law notary firm to perform the notarial acts forming part of the Services, such as executing the deed of incorporation of the Company or the issue or amendment of articles of association. In this connection, the Customer's founders and/or directors must grant a notarial power of attorney to the civil-law notary, which the civil-law notary will submit to the Customer (via the Digital Notary Platform).

4.5 The legal relationship between the external civil-law notary firm and the Customer in connection with acts performed by the civil-law notary for the Customer is governed by the external civil-law notary firm's general terms and conditions, including the limitations of liability contained therein. To the extent necessary, this provision constitutes a third-party beneficiary clause for the benefit of the external civil-law notary firm within the meaning of Article 6:253 of the Dutch Civil Code, which the external civil-law notary firm may invoke against the Customer.

4.6 Digital Notary has the right to terminate an Agreement with immediate effect (prior to its expiry), without liability, if the civil-law notary refuses to perform the Services on the basis of the notarial duty of care, for example in the event of suspected identity fraud, money laundering or other illegal activities, or doubts concerning legal capacity. In that event, Digital Notary remains entitled to payment for the Services obtained, including to the extent that they cannot be performed for the aforementioned reasons, and is not obliged to refund fees already paid.

4.7 Under regulations arising from the WWFT, the civil-law notary is obliged to verify the identity of the Customer's founders, directors and/or ultimate beneficial owners (UBOs). Digital Notary requests the necessary details from the Customer on behalf of the civil-law notary, using a secure method, and makes them available to the civil-law notary. In connection with the notarial duty of care, the civil-law notary may also request further information (details or documentation) from the Customer and/or a meeting with the

Customer. If the Customer is unwilling or unable to provide the requested details or information, or fails to cooperate with a request for a meeting with the civil-law notary, the Services may be unable to be provided, in whole or in part, entirely at the Customer's risk. In that event, Digital Notary retains its entitlement to full payment for the agreed Services, including to the extent that they cannot be performed, and is not obliged to refund fees already paid.

5. Prices and Delivery

5.1 The current prices for Digital Notary's Services are stated on the Digital Notary website. Prices are non-binding and may be changed by Digital Notary at any time before the Agreement is entered into. Periodic fees payable to Digital Notary under the Digital Notary Licence Agreement may be adjusted annually by Digital Notary with effect from 1 January.

5.2 All prices stated by Digital Notary on its website or in other offers exclude VAT unless otherwise indicated. VAT will be added to the prices upon payment.

5.3 Delivery times stated by Digital Notary for Services are indicative and non-binding, unless a particular delivery deadline has expressly been agreed to be binding.

6. Payment and Invoicing

6.1 Payment for Services obtained through the Digital Notary Platform must be made in advance by online payment (iDEAL or another online payment method made available). In the absence of payment, Digital Notary has no obligation whatsoever to provide the relevant Services.

6.2 Digital Notary may elect to invoice certain Services in arrears. In that event, a maximum payment period of 14 days applies. If payment is not made on time, the Customer shall immediately be in default and statutory commercial interest pursuant to Article 6:119a of the Dutch Civil Code shall be due from the invoice due date up to and including the date of full payment. Any costs of a debt collection agency engaged by Digital Notary shall be borne by the client.

6.3 In all cases, the Customer shall receive a digital invoice from Digital Notary for the Services that meets the applicable requirements under Dutch law.

6.4 Any right of the Customer to set off an invoice issued by Digital Notary against any counterclaim of the Customer, or to suspend any payment to Digital Notary on any grounds whatsoever, is hereby excluded.

6.5 This Article does not apply to Services offered by Digital Notary free of charge.

7. The Digital Notary Platform

7.1 Digital Notary provides the Company and Shareholders with access to the Digital Shareholders' Register through a user account on the Digital Notary Platform. The Platform can be accessed via the Digital Notary website and/or the Digital Notary app.

7.2 Digital Notary implements appropriate technical and organisational measures to secure the Digital Notary Platform and user accounts in order to safeguard the confidentiality and integrity of Customer data and prevent access or misuse by unauthorised third parties. Digital Notary does not guarantee that misuse or unauthorised access will be prevented at all times.

7.3 User accounts are secured by a username (in the form of an email address) and a password, which must meet the password requirements set by Digital Notary (the "Login Credentials"). The Customer may periodically be asked to change the password.

7.4 The Customer must keep the Login Credentials strictly confidential and disclose them only to personnel authorised to log in on behalf of the Customer. The Customer guarantees that unauthorised parties will not gain access to the Login Credentials. The Customer must log out at the end of each session.

7.5 Misuse of Login Credentials is at the Customer's risk, unless the Login Credentials have come into the possession of third parties as a result of an act or omission by Digital Notary. In the event of (suspected) misuse of Login Credentials, the Customer shall notify Digital Notary as soon as possible. In

such event, Digital Notary is entitled to (temporarily) block access to the Digital Notary Platform or take other appropriate measures.

7.6 The Customer shall at all times comply with Digital Notary's guidelines or instructions for using the Digital Notary Platform.

7.7 Digital Notary shall use its best efforts to ensure that the Digital Notary Platform functions properly and is available to the Customer day and night (provided that the Customer's equipment meets the technical requirements of the Digital Notary Platform). However, Digital Notary does not guarantee that the Platform will be available at all times (100% of the time) and/or operate without errors, viruses or bugs. Digital Notary is entitled to temporarily suspend access to the Platform if necessary for scheduled or unscheduled maintenance. In the event of planned maintenance, it will endeavour, where possible, to schedule this at night and/or during weekends. Where possible, the Customer will be informed in advance.

7.8 For technical questions about the use or availability of the Digital Notary Platform, or to report disruptions or security incidents, Digital Notary customer service may be contacted at support@digitalnotary.nl.

8. Privacy

8.1 Digital Notary and the Customer shall each comply with their respective obligations under the GDPR.

8.2 Information on the processing of personal data by Digital Notary (including personal data of website visitors, Customers or persons associated with a Customer) for which it acts as controller within the meaning of the GDPR is set out in Digital Notary's Privacy Statement. The current version is published on the Digital Notary website and can be found at digitalnotary.nl/privacybeleid.digitalnotary.nl/privacybeleid

8.3 The processing of personal data by Digital Notary on behalf of the Company under the Digital Notary Licence Agreement (including in connection with the digital incorporation of the Company, identification of shareholders and directors, management of the Digital Shareholders' Register and use of the

Digital Notary Platform by the Company) is governed by the Data Processing Agreement between Digital Notary and the Company.

9. Liability

9.1 Digital Notary B.V. and Nxchange B.V. shall each be liable separately, and not jointly and severally, for any breach and/or unlawful act committed by either of them in connection with the Agreement or the Services.

9.2 Digital Notary's liability in connection with an Agreement and/or Services provided, including both contractual and non-contractual liability, is limited as follows:

9.2.1 Digital Notary is not liable for acts (including Corporate Actions) of a Company or for a Company's failure to act.

9.2.2 Digital Notary is not liable for loss or damage suffered in connection with or arising from an Issue, or the making of payments or receipt of funds in connection with the Issue, purchase or sale of Shares, without prejudice to Article 9.2.4.

9.2.3 Digital Notary is not liable for business losses, consequential losses or indirect losses of any kind and however arising, including loss of turnover, loss of profit, loss of goodwill, loss of business or customers, or losses resulting from business interruption.

9.2.4 In the event of loss, theft and/or other unauthorised extinguishment of Shares in the Digital Shareholders' Register, if Digital Notary were liable in respect thereof, Digital Notary's liability shall be limited to compensation in cash for the value of the lost Shares.

9.2.5 Digital Notary is not liable for failures by the external civil-law notary firm involved in performing the Services. Nor is Digital Notary liable if the designated civil-law notary wrongfully refuses to provide services and loss or damage results. Any claim by the Customer against the civil-law notary firm shall be subject to that firm's general terms and conditions.

9.3 Any liability of Digital Notary towards the Customer in connection with the Agreement and/or Services shall be limited to either (i) the net invoice value of what Digital Notary supplied to the Customer during the three months preceding the event causing the loss (after deduction of any amounts credited), or, if the loss is covered by insurance under which Digital Notary is an insured party, (ii) the amount actually paid out by the insurer in that respect less the deductible (if the amount paid out exceeds the amount referred to in (i)), and (iii) provided always that any liability of Digital Notary towards the Customer is capped at EUR 50,000.

9.4 Any claim by the Customer against Digital Notary, other than a claim acknowledged by Digital Notary, shall in any event lapse 12 months after the Customer became aware of the existence of the claim, unless within that period the Customer has informed Digital Notary of the claim by means of a specific and properly substantiated written notice and has demanded performance, without prejudice to statutory complaint periods (insofar as shorter) and other statutory or contractual defences available to Digital Notary.

9.5 The limitations of liability described in this Article also apply where Digital Notary is liable for errors made by third parties engaged by it, without prejudice to Article 9.2.5.

9.6 The limitations of liability under these Terms do not apply to loss or damage resulting from intentional misconduct or deliberate recklessness on the part of Digital Notary, in the event of personal injury or death, or to other loss or damage that cannot be excluded or limited by contract under applicable law.

9.7 The limitations of liability under this Article 9 also apply to any liability of employees, directors, representatives, group companies and/or other natural or legal persons associated with Digital Notary who are involved in performing the Agreement. To the extent necessary, this provision constitutes a third-party beneficiary clause for their benefit within the meaning of Article 6:253 of the Dutch Civil Code, which such persons may invoke directly against the Customer.

10. Indemnification

10.1 The Customer shall indemnify Digital Notary against all third-party claims in connection with or arising from:

- Acts (including Corporate Actions) of the Company or the Company's failure to act;
- Unauthorised use and/or misuse of the Digital Notary Platform and the Digital Shareholders' Register by the Customer or persons associated with the Customer and/or use thereof in breach of Digital Notary's guidelines;
- Misuse of Login Credentials by the Customer, except to the extent that the Login Credentials have come into the possession of third parties as a result of an act or omission by Digital Notary.

11. Suspension and Termination

11.1 In the event of a failure by the Customer to perform its obligations, Digital Notary is entitled to suspend its obligations towards the Customer or to terminate the Agreement in whole or in part, without prejudice to any further rights, including any right to reimbursement of costs, damages or statutory interest. Where performance is not permanently or temporarily impossible, this right of suspension or termination shall arise only after Digital Notary has given the Customer written notice of default and the Customer has failed to remedy the breach within 14 days.

11.2 Upon termination pursuant to this provision, all outstanding invoices of Digital Notary under the Agreement or other Agreements shall become immediately due and payable, without prejudice to Digital Notary's further rights.

12. Communications, Complaints, Governing Law and Disputes

12.1 Communications with the Customer shall take place via the email address provided by the Customer to Digital Notary. The Customer is responsible for keeping the email address details in their account on the Digital Notary Platform up to date.

12.2 In the event of complaints concerning Digital Notary, you may contact our customer service department by sending an email to support@digitalnotary.nl. We will deal with your complaint as soon as possible.

12.3 In the event of complaints concerning the work of the external civil-law notary, you may contact the civil-law notary firm directly through its internal complaints procedure. The civil-law notary's services are also subject to the Regulation on Complaints and Dispute Resolution in the Notarial Profession (Verordening Klachten- en geschillenregeling Notariaat). Further information is available at www.knb.nl (the website of the Royal Dutch Association of Civil-law Notaries) and www.degeschillencommissie.nl.www.knb.nlwww.degeschillencommissie.nl

12.4 The Agreement shall be governed exclusively by Dutch law.

12.5 Disputes in connection with or arising from the Agreement and/or Digital Notary's provision of Services, including both contractual and non-contractual claims, shall be submitted exclusively to the competent court in Amsterdam, except insofar as mandatory provisions of consumer law from which no contractual derogation is permitted entitle the Customer to bring proceedings before another court.

13. Final Provisions

13.1 These Terms have been drawn up in the Dutch language. If Digital Notary makes a translation of these Terms available on its website or by other means, the Dutch-language version of the Terms shall prevail in the event of any discrepancy between the Dutch text and the translation.

13.2 Digital Notary has the right to update and amend these Terms from time to time, provided that the Customer is notified at least 30 (thirty) days in advance (by email or via the Digital Notary Platform). If the Customer does not agree to the updated or amended Terms, the Customer may terminate the Agreement without any right to further recourse (without prejudice to the obligations incumbent upon the Company upon termination of the Licence Agreement, where applicable). An updated or amended version of the Terms

shall replace the existing (current) version from the date stated in the notice of update/replacement. The applicable Terms are published on the website www.digitalnotary.nl. www.digitalnotary.nl

13.3 The Customer may not transfer its rights or obligations arising from the Agreement to third parties without Digital Notary's prior written consent.
